DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, Claim(s) 1-32 and 34-40, drawn to user icons in class 715, subclass 706, 757.

Group II, Claim 33, drawn to slide show interfaces in class 715, subclass 730.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions of user icons in a conferencing method and slide show interfaces are unrelated. In Group II, there is no mention of any user icons; the Claim is directed specifically and directly to a slide show interface. Conversely, Group I nowhere speaks of a slide show interface and pertains strictly to user icon interactions.

3. A telephone call was made to Lester Vincent on 12/1/04 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
